

PIPE, BOLT AND NUT WRENCH.

GRIPS AND RELEASES WORK INSTANTLY.

We invite your attention to the following points of superiority claimed for the **ROUSE PATENT PIPE, BOLT AND NUT WRENCH**:

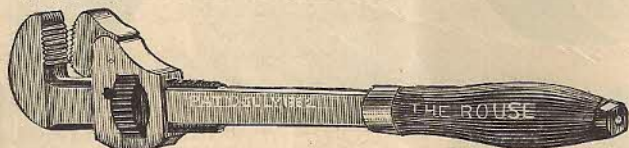

It is **Drop-forged from the best Tool Steel** and the construction is such that it is as **strong when opened to its fullest capacity** as at any other point. The Screw Rack being on a Rabbet independent from the Main Bar, secures the entire strength of the steel unimpaired, by being cut away for the thread, and adds immensely to its durability.

THE ROUSE WRENCH is admirably suited to the requirements of **Bridge Builders, Engineers, Constructors of Iron Buildings, etc.**, for handling Stay-Bolts, Studs, Round Rods, Nuts, etc., in addition to following sizes Wrought Iron Pipes.

NOTE RANGE OF PIPES AND NUTS TAKEN BY THE SIZES.
